

Income-Based Enhanced Incentives

The first step toward saving energy is a no-cost Home Energy Assessment. To schedule yours, please call [1-888-633-7947](tel:1-888-633-7947). During the assessment, your Energy Specialist may recommend weatherization upgrades as your key energy-saving improvement. Weatherization includes sealing air leaks around your home and adding insulation.

Insulation and air sealing can help you:

Save energy and money

Reduce allergens and outside noise

Increase home comfort year-round

In partnership with the Rhode Island Office of Energy Resources, Rhode Island Energy wants to help you maximize your comfort and energy savings by offering an enhanced incentive of 100% of approved insulation to qualifying customers.
